

35th Symposium on Naval Hydrodynamics

📅 8-12 July 2024 | Nantes

[Link to event information](#)

Sponsorship Invitation

It is our pleasure to announce the thirty-fifth edition of the Symposium on Naval Hydrodynamics, which will take place in Nantes (France) from 8th July to 12th July 2024 organised by Ecole Centrale Nantes (ECN) with the support of ONR (U.S. Office of Naval Research).

The venue is La Cité Nantes Congress Centre, conveniently situated within walking distance from the city centre, the train station and the public transport network. The Nantes Atlantique airport is connected by bus shuttle to Lieu Unique (Cité des Congrès) station.

Previous issues of this biennial symposium have been held in Rome (2006), Seoul (2008), Pasadena (2010), Gothenburg (2012), Hobart (2014), Monterey (2016), Hamburg (2018), Osaka (2020) and Washington (2022).

This symposium is a highly prestigious conference on naval hydrodynamics, gathering about 250 researchers from all the world. As a global forum for networking and sharing advancements in cutting edge science and technology since its inception in 1956, this biennial symposium focuses on research and development in fluid mechanics as they relate to naval hydrodynamics.

SNH 2024 represents an exceptional opportunity to reach a uniquely targeted audience and demonstrate your commitment to the future of hydrodynamics. Do not miss this chance to position your organisation at the forefront. We trust your presence at SNH 2024 is vital for all players and invite you to join us. Your organisation can participate at various levels. The attached sponsorship package provides further details about advertising, exhibition options and how to contribute support.

We thank you very much for your time and consideration. We hope for your financial support, and look forward to hearing from you soon.

Sincerely yours,

Michel VISONNEAU

Emmanuel GUILMINEAU

Come join the excitement and have the opportunity to network and recruit directly from highly regarded professionals, scientists, and students in the field.
